

MANCHESTER (UK)

Cryotop Vitrification Hands-On Workshop

Introduction

KITAZATO-DIBIMED, in cooperation with CARE Fertility, is pleased to announce an International Hands-On Workshop in Vitrification.

We are committed to helping clinics to **achieve the best survival results that the Cryotop® Method offers**, so we believe it's very important to provide professionals with the opportunity to train with us.

The course is mainly practical and it offers interaction and supervision with some of Care Fertility's leading specialists.

This Hands-On Workshop provides a unique chance for top embryologists from clinics around the world to upskill to ensure success when using our vitrification method, valid for oocytes, blastocysts and cleavage stage embryos.

Workshop official language: **English**

Date: **12th of March 2020 ***

Location: **CARE Fertility Training Lab (Manchester)**

Faculties: **Louise Best / CARE Fertility Manchester**

Fee: **200 €**

For more information, please contact:

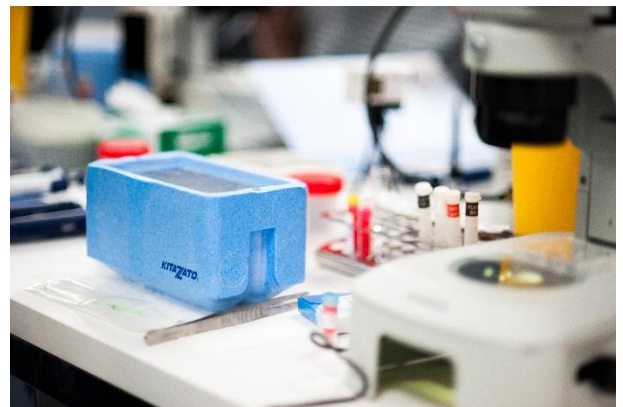

mverma@dibimed.com

* Please note that the available **places are limited** and allocated on a first-come, first-served basis.

Programme

- 09:30-10:30** KITAZATO's Vitrification Presentation
Clinical results of the Cryotop® Method and experience at CARE Fertility Group
- 10:30-13:30** Demonstration of vitrification with Cryotop
Hands-On oocyte and embryo vitrification and thawing

Light lunch will be served after the workshop.
